INDEPENDENT AUDITORS' REPORT

Board of Commissioners
Oakbrook Terrace Park District
Oakbrook Terrace, Illinois

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Oakbrook Terrace Park District, Oakbrook Terrace, Illinois (the "Park District") as of and for the year ended April 30, 2024, and the related notes to the financial statements, which collectively comprise the Park District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Park District, as of April 30, 2024, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Park District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 11, the Park District adopted the provisions of Governmental Accounting Standards Board Statement No. 87, *Leases*, effective May 1, 2023. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Park District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks.
- Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Park District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Park District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Park District's basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

OAKBROOK TERRACE PARK DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED APRIL 30, 2024

This section of the Oakbrook Terrace Park District's (the "Park District") annual financial report is the discussion and analysis of the Park District's financial performance and provides an overall review of the Park District's financial activities for the fiscal year ending April 30, 2024.

The management of the Park District encourages readers to consider the information presented herein in conjunction with the basic financial statements to enhance their understanding of the Park District's financial performance. Certain comparative information between the current year and the prior year is required to be presented in the MD&A and is included in this analysis.

Financial Highlights

- The Park District's total net position was reported as \$6,982,713 at April 30, 2023. As of April 30, 2024, the net position increased to \$7,396,813, an increase of \$414,100.
- As of the close of the current fiscal year, the Park District's governmental funds reported a combined ending fund balance of \$3,560,398, a decrease of \$344,256 from the prior year.
- The General Fund's fund balance increased \$40,678 to \$724,346; the Recreation Fund's fund balance decreased \$55,242 to \$537,558; the Special Recreation Fund's fund balance increased \$6,704 to \$26,760; the Municipal Retirement Fund's fund balance decreased \$54,177 to \$25,090, the Debt Service Fund's fund balance increased \$30,162 to \$136,541, the Capital Projects Fund's fund balance decreased \$317,642 to \$1,910,249 and the other governmental funds' fund balance increased \$5,261 to \$199,854.

Overview of the Financial Statements

This financial report consists of three parts – management's discussion and analysis (this section), basic financial statements and required supplementary information. The basic financial statements include two kinds of statements that present different views of the Park District.

- *The statement of net position and statement of activities* are *government-wide* financial statements that provide both short-term and long-term information about the Park District's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the Park District. Fund statements generally report operation in more detail than the government-wide financial statements.

The financial statements also include many notes. These explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements.

The major features of the Park District's financial statements, including the portion of the Park District's activities they cover and the types of information they contain, are shown in the following table:

Major Features of the Government-Wide and Fund Financial Statements

	Government-Wide Statements	Fund Financial Statements	
		Governmental Funds	Fiduciary Funds
Scope	Entire Park District (except fiduciary funds)	The activities of the Park District that are not fiduciary, such as general fund	Instances in which Park District administers resources on behalf of someone else
Required financial statements	Statement of net position	Balance sheet	Statement of fiduciary net position
	Statement of activities	Statement of revenues, expenditures, and changes in fund balance	Statement of changes in fiduciary net position
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial focus	Accrual accounting and economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long-term	Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or liabilities included	All assets and liabilities, both short-term and long-term; funds do not currently contain capital assets, but they can
Type of deferred inflows/outflows of resources information	All deferred inflows and outflows of resources, financial, short-term and long-term	Generally deferred outflows of resources to be used up and deferred inflows that come due during the year or soon thereafter; no capital or debt included	Not applicable
Type of inflow/outflow information	All revenues and expenses during the year, regardless of dates of actual cash transactions	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable	All additions and deductions during the year, regardless of when cash is received or paid

The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

Government-Wide Financial Statements

The government-wide financial statements report information about the Park District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the Park District's assets and liabilities. All the current year's revenues and expenditures are accounted for in the statement of activities.

Unlike a private sector company, the Park District cannot readily convert fixed assets to liquid assets. Park districts can, and sometimes do, convert fixed assets to cash through the sale of property; however, this is a rare event and not easily accomplished.

The government-wide financial statements report the Park District's net position and how they have changed throughout the year. Net position – the difference between the Park District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources – is one way to measure the Park District's financial health or position.

- Over time, increases or decreases in the Park District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the Park District's overall health, one needs to consider additional non-financial factors, such as changes in the Park District's property tax base and the condition of facilities.

In the government-wide financial statements, the Park District's activities are presented as follows:

- *Governmental activities* – Most of the Park District's basic services are included here, such as support services, community programs and administration. Property taxes finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the Park District's funds, focusing on its most significant or "major" funds – not the Park District as a whole. Funds are accounting devices the Park District uses to keep track of specific sources of funding and spending on particular programs and to demonstrate compliance with various regulatory requirements.

- Some funds are required by state law.
- The Park District establishes other funds to control and manage money for particular purposes or to show that it is properly using certain revenues.

The Park District has one fund type:

Governmental funds – The Park District's basic services are included in governmental funds, which generally focus on (1) how cash, and other financial assets that can readily be converted to cash, flow in and out, and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps one determine whether there are more or fewer financial resources that can be spent in the near future to finance the Park District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, additional information is included as a separate statement explaining the relationship (or differences) between them.

Net Position, Ending	\$ 7,396,813	\$ 6,982,713

The Park District's total revenues were \$2,081,459 for governmental activities. Local taxes (predominantly real estate taxes) were \$1,723,387 of the total. Investments earned \$33,083. Program and rental fees were \$244,563. Miscellaneous income made up the balance.

Total costs for all governmental programs totaled \$1,667,359 of this total, \$1,270,498 was for recreation and \$347,292 was for depreciation.

As noted earlier, net position may serve as a useful indicator of the Park District's financial position. The Park District's overall financial position and results of operations has improved during the fiscal year ended April 30, 2024. The assets and deferred outflows of resources exceeded the liabilities and deferred inflows of resources resulting in a net position balance of \$7,396,813 as of the close of the fiscal year.

Please note that the amounts reported for governmental funds in the audit statement are different from the summary tables above because (1) capital assets used in governmental funds are not financial resources, as they are in business, and are not reported as assets in governmental funds. (2) long-term liabilities, including bonds payable, are not due in the current period and therefore not reported as liabilities in the funds.

EXPENDITURES AND CHANGES IN FUND BALANCES
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED APRIL 30, 2024

Total net change in fund balances-governmental funds (Exhibit D)		\$ (344,256)
Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation/amortization expense. This is the amount by which capital outlays exceeded depreciation/amortization expense in the current period.		
Depreciation/amortization expense	\$ (347,292)	
Capital outlay over capitalization limits	<u>599,888</u>	252,596
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		
Earned but unavailable taxes		(70,032)
Bonds and other debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of bond and other debt principal is an expenditure in the governmental funds, but repayment reduces long-term liabilities in the statement of net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.		
Principal paid on leases and bonds		421,308
Some amounts reported in the statement of activities do not require the use of current financial resources and therefore are not reported in the governmental funds.

OAKBROOK TERRACE PARK DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
APRIL 30, 2024

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Oakbrook Terrace Park District (the “Park District”), located in DuPage County, Illinois, operates under a Board-Manager form of government, providing recreation and other services to the residents of Oakbrook Terrace which include recreation programs, park management, capital development, and general administration. The accounting policies of the Park District conform to accounting principles generally accepted in the United States of America (U.S. GAAP), as applicable to local governmental units of this type. The following is a summary of the more significant accounting policies of the Park District.

A. Financial Reporting Entity

Accounting principles generally accepted in the United States of America require that the financial statements of the reporting entity include: (1) the primary government, (2) organizations for which the primary government is financially accountable, and (3) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The Park District is not included as a component unit of any other governmental entity.

A legally separate, tax exempt organization should be reported as a component unit of a reporting entity if all of the following criteria are met: (1) the economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units, or its constituents; (2) the primary government is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization; (3) the economic resources received or held by an individual organization that the specific primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to that primary government. Blended component units, although legally separate entities, are, in substance, part of the government's operations and are reported with similar funds of the primary government. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the primary government. This report does not contain any component units.

B. Basis of Presentation

Government-Wide Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the Park District. The effect of interfund activity has been removed from these statements. The Park District's operating activities are all considered “governmental activities,” that is, activities normally supported by taxes and intergovernmental revenues. The Park District has no operating activities that would be considered “business activities.”

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: (1) amounts paid by the recipient of goods or services offered by the program and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Governmental Funds Financial Statements

Governmental funds financial statements are organized and operated on the basis of funds and are used to account for the Park District's general governmental activities. Fund accounting segregates funds according to their intended purpose, and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts that comprise its assets, liabilities, reserves, fund balance, revenues, and expenditures. The minimum number of funds is maintained consistent with legal and managerial requirements.

OAKBROOK TERRACE PARK DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
APRIL 30, 2024

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Separate financial statements are provided for all governmental funds and fiduciary funds; the fiduciary funds are excluded from the government-wide financial statements (the Park District does not have fiduciary funds).

C. Measurement Focus and Basis of Accounting

The government-wide financial statements and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing or related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue when all eligibility requirements have been met.

Governmental fund financial statements are reported using the flow of current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both "measurable and available." "Measurable" means that the amount of the transaction can be determined, and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Park District considers all revenues available if they are collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred. However, expenditures for unmatured principal and interest of general long-term debt are recognized when due; and certain compensated absences, claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources. A brief explanation of the Park District's governmental funds is as follows:

General Fund – is the general operating fund of the Park District. It accounts for all financial resources except those required to be accounted for in another fund. Revenues consist largely of local property taxes.

Special Revenue Funds – account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes, other than those accounted for in the Debt Service Fund, Capital Projects Funds or Fiduciary Funds.

Recreation Fund – accounts for the operations of recreation programs offered to residents. Revenue consists primarily of local property taxes and program fees.

Special Recreation Fund – accounts for all revenue and expenditures made certain special recreation programs. Revenue is derived primarily from local property taxes.

Audit Fund – accounts for local property taxes used for payment of financial audit services.

Insurance Fund – accounts for local property taxes used for payment of insurance coverage.

Paving and Lighting Fund – accounts for local property taxes used for paving and lighting maintenance.

Municipal Retirement Fund – accounts for the Park District's portion of pension contributions to the Illinois Municipal Retirement fund, payments to Medicare, and payments to the Social Security System. Revenue to finance the contributions is derived primarily from local property taxes and personal property replacement taxes.

Workers' Compensation Fund – accounts for local property taxes used for payment of workers' compensation insurance coverage.

Working Cash Fund – accounts for financial resources held by the Park District to be used as temporary interfund loans for working capital requirements.

APRIL 30, 2024

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Debt Service Fund – accounts for the accumulation of resources for, and the payment of, long-term debt principal, interest, and related costs. The primary revenue source is local property taxes levied specifically for debt service.

Capital Projects Fund – accounts for the financial resources to be used for the acquisition or construction of, and/or additions to, major capital facilities.

Major Governmental Funds

The Park District reports the following major governmental funds:

- General Fund
- Recreation Fund
- Special Recreation Fund
- Municipal Retirement Fund
- Debt Service Fund
- Capital Projects Fund

Non-Major Funds

The Park District reports the following non-major funds:

- Audit Fund
- Insurance Fund
- Paving and Lighting Fund
- Workers' Compensation Fund
- Working Cash Fund

Property taxes are susceptible to accrual. Other receipts become measurable and available when cash is received by the Park District and recognized as revenue at that time.

D. Cash and Deposits

It is the policy of the Park District to invest its funds in a manner which will provide the highest return with the maximum security while meeting the daily cash flow requirements of the Park District's operations and to conform to all state and local statutes governing the investment of public funds. Cash and deposits are considered cash on hand, cash with financial institutions, and saving deposit accounts.

E. Prepaid Items

The Park District's prepaid amounts are accounted for using the consumption method. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures in the fund financial statements when consumed rather than when purchased.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

F. Interfund Receivables and Payables

Transactions between funds that are representative of lending and borrowing arrangements outstanding at the end of the fiscal year are referred to as interfund receivables and payables. These amounts are eliminated in the governmental activities column in the Statement of Net Position. Receivables are expected to be collected within one year.

G. Unearned Revenue

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred revenues and unearned revenue reported in the governmental funds were for programs.

H. Property Tax Revenues

The Park District must file its tax levy resolution by the last Tuesday in December of each year. The Park District's 2022 levy resolution was approved during the November 15, 2022 board meeting. The Park District's 2023 levy resolution was approved during the November 14, 2023 board meeting. The Park District's property tax is levied each year on all taxable real property located in the Park District and it becomes a lien on the property on January 1 of that year. The owner of real property on January 1 in any year is liable for taxes of that year. The Park District's annual property tax levy is subject to two statutory limitations: Individual fund rate ceilings and the Property Tax Extension Limitation Act (PTELA).

The PTELA limitation is applied in the aggregate to the total levy (excluding certain levies for the repayment of debt). PTELA limits the increase in total taxes billed to the lesser of 5% or the percentage increase in the Consumer Price Index (CPI) for the preceding year. The amount can be exceeded to the extent there is "new growth" in the Park District's tax base. The new growth consists of new construction, annexations and tax increment finance Park District property becoming eligible for taxation.

Property taxes are collected by the County Collector/Treasurer, who remits to the Park District its share of collections. Taxes levied in one year become due and payable in two equal installments: the first due on June 1 and the second due on September 1. Property taxes are normally collected by the Park District within 60 days of the respective installment dates. The Park Districts policy is 0% for allowance for doubtful accounts per historical collections.

I. Personal Property Replacement Taxes

Personal property replacement taxes are allocated at the discretion of the Park District.

J. Capital Assets

Capital assets include land, land improvements, buildings, building improvements, vehicles, equipment, and construction-in-progress. These assets are reported in the government-wide financial statements. Capital assets are defined by the Park District as an initial individual cost of more than \$2,000 with an estimated useful life of 1 year or more. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at their acquisition value at the date of donation.

OAKBROOK TERRACE PARK DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
APRIL 30, 2024

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Depreciation of capital assets is provided using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	20-40 years
Land Improvements	10-15 years
Vehicles	8 years
Equipment	5-7 years

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

K. Long-Term Liabilities (including Leases)

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the applicable bonds using the effective interest method. Bonds payable is reported net of the applicable bond premium or discount.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the period incurred. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Leases

The Park District is a lessee for a noncancellable lease of equipment (copiers). The Park District recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the government-wide financial statements.

At the commencement of a lease, the Park District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the Park District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The Park District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the Park District generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the Park District is reasonably certain to exercise.

The Park District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

L. Equity/Fund Balance Classification Policies

Equity is classified as net position and displayed in three components:

Net investment in capital assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets less any unspent debt proceeds.

Restricted net position – Consists of net position with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or, 2) law through constitutional provisions or enabling legislation.

Unrestricted net position – The remaining net position that does not meet the definition of “restricted” or “net investment in capital assets.”

When both restricted and unrestricted resources are available for use, it is the Park District's policy to use restricted resources first, and then unrestricted resources as they are needed.

Governmental Fund Balance Reporting

Governmental fund balances are classified into five major classifications: non-spendable, restricted, committed, assigned, and unassigned.

Non-spendable – the non-spendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash, for example, prepaid items.

Restricted – the restricted fund balance classification refers to amounts that are subject to outside restrictions, not controlled by the Park District. Items such as restrictions imposed by creditors (such as debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation. Special Revenue Funds are by definition restricted for those specified purposes.

Committed – the committed fund balance refers to amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Board of Commissioners. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of formal action it employed to previously commit those amounts.

Assigned – the assigned fund balance classification refers to amounts that are constrained by the intent of the Park District's management to be used for specific purposes, but are neither restricted nor committed. Assignments may take place after the end of the reporting period.

Unassigned – the unassigned fund balance classification is the residual classification for amounts in the General Fund for amounts that have not been restricted, committed, or assigned to specific purposes within the General Fund.

Expenditures of fund balances – unless specifically identified, expenditures reduce restricted balances first, then to committed balances, next assigned balances, and finally act to reduce unassigned balances. Expenditures for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified.

OAKBROOK TERRACE PARK DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
APRIL 30, 2024

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

In the governmental funds financial statements, the Park District reserves those portions of fund balances which are legally segregated for a specific purpose or do not represent amounts available for other appropriations.

Eliminations and Reclassifications

In the process of aggregating data for the government-wide financial statements, some amounts reported as interfund activity and balances were eliminated or reclassified.

M. Deferred outflows/inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Park District has two items that qualify for reporting in this category. The two items are related to pensions and other post-employment benefits reported in the government-wide statement of position. These result from the differences between expected and actual experience, the net differences projected and actual investment earnings on plan investments, changes of assumptions, and changes in proportion and differences between contributions and proportion share of contributions.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow or resources (revenue) until that time. The Park District has three of these items. The first item, unavailable revenue-property taxes, is reported only in the governmental funds balance sheet. This amount is deferred and recognized as an inflow of resources in the period that the amounts become available. The second and third items are related to pensions and other post-employment benefits reported in the government-wide statement of position. This result is from the differences between expected and actual experience, the net differences projected and actual investment earnings on plan investments, changes of assumptions, and changes in proportion and differences between contributions and proportion share of contributions.

N. Program Revenues

Amounts reported as program revenues include 1.) grants specified for use in operations, 2.) recreation programs, and 3.) miscellaneous items. All taxes, including those for specific purpose, are reported as general revenues rather than program revenues.

NOTE 2 – CASH AND INVESTMENTS

At April 30, 2024, the carrying amount of the Park District's deposits and investments was \$2,859,309, including petty cash of \$430, and bank balances totaled \$3,018,956. The carrying amount is segregated into the following components: 1) cash on hand, \$430; and 2) deposits with financial institutions, which include amounts held in demand accounts, savings accounts, and investments, \$3,018,526.

OAKBROOK TERRACE PARK DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
APRIL 30, 2024

NOTE 2 – CASH AND INVESTMENTS (CONT'D)

For disclosure purposes, the amounts are classified as follows:

Cash and Investments	Amount	Maturities		
		Less Than Six Months	Six Months to One Year	One Year to Three Years
Cash with Financial Institutions	\$ 1,125,975	\$ 1,125,975	\$ -	\$ -
Savings Accounts	1,892,551	1,892,551	-	-
Total	<u>\$ 3,018,526</u>	<u>\$ 3,018,526</u>	<u>\$ -</u>	<u>\$ -</u>

Interest Rate Risk. The Park District's investment policy seeks to ensure preservation of capital in the Park District's overall portfolio. Return on investment is of secondary importance to safety of principal and liquidity. The policy does not limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, the policy requires the Park District investment portfolio to be sufficiently liquid to enable the Park District to meet all operating requirements as they come due.

Credit Risk. State law limits investments in commercial paper, corporate bonds, and mutual funds to the top two ratings issued by nationally recognized rating organization (NRSRO's).

Concentration of Credit Risk. The Park District's policy states investments shall be diversified to avoid incurring unreasonable risks regarding specific security types and/or individual financial institutions. The Park District shall diversify its investments to the best of its ability based upon the type of funds invested, available institutions to invest in, and the cash flow needs of those funds. Diversification can be by type of investment, number of institutions invested in, and length of maturity.

Custodial Credit Risk – Deposits. With respect to deposits, custodial credit risk refers to the risk that, in the event of a bank failure, the Park District's deposits may not be returned to it. The Park District's investment policy limits the exposure to deposit custodial credit risk by requiring all deposits in excess of the Federal Deposit Insurance Corporation's insurable limits to be secured by collateral in the event of default or failure of the financial institution holding the funds. As of April 30, 2024, deposits are covered by Federal Deposit Insurance Corporation or collateral as follows:

Insured	\$ 377,407
Collateral held by pledging bank's agent in the Park District's name	<u>2,641,119</u>
Total	<u>\$ 3,018,526</u>

Separate cash accounts are not maintained for all Park District funds; instead, the individual funds maintain their cash and investment balances in the common checking and savings accounts, with accounting records being maintained to show the portion of the common account balance attributable to each participating fund.

Leases

On January 27, 2022, the Park District entered into a five-year lease agreement for the purchase of copiers (equipment) with an option to purchase the equipment for the fair value at the end of the lease. An initial lease liability was recorded in the amount of \$37,683. The equipment has a five-year estimated useful life. This obligation will be liquidated by the Debt Service Fund. As of April 30, 2024, the value of the lease liability was \$22,608. The Park District is required to make monthly principal and interest payments of \$675, and has an interest rate of 3.00 percent. The value of the leased equipment as of the end of the current fiscal year was \$21,981 and had accumulated amortization of \$15,702.

General Obligation Bonds.

The bonds are direct obligations and pledge the full faith and credit of the Park District and are liquidated by the Debt Service Fund. Bonds payable at April 30, 2024, is comprised of a General Obligation Limited Tax Park Bond, Series 2022, issued December 19, 2022, totaling \$1,300,000 due in varying installments through 2025. The interest rate is 4.15 percent. At April 30, 2024, \$886,000 remains outstanding.

Net Pension Liability – IMRF

The net pension liability, related to the Illinois Municipal Retirement Fund (IMRF), was measured as of December 31, 2023, as determined by an actuarial valuation as of that date (See Note 8 – Retirement System for further detail).

Net OPEB Liability – HBP

The net OPEB liability, related to the health benefit plan coverage (HBP), was measured as of September 30, 2023, as determined by an actuarial valuation as of that date (See Note 9 – Other Post-Employment Benefits for further details).

NOTE 7 – RISK MANAGEMENT

The Oakbrook Terrace Park District is exposed to various risks related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and net income losses.

Since October 1, 2007, the Oakbrook Terrace Park District has been a member of the Park District Risk Management Agency (PDRMA) Property/Casualty Program. PDRMA is a public entity risk pool consisting of park districts, forest preserve districts, special recreation associations and certain non-profit organizations serving the needs of public entities formed in accordance with the terms of an intergovernmental cooperative agreement among its members. The following table is a summary of the property/casualty coverage in effect for the period January 1, 2024, through January 1, 2025:

NOTE 7 – RISK MANAGEMENT (CONT'D)

Losses exceeding the per-occurrence self-insured and reinsurance limit would be the responsibility of the Oakbrook Terrace Park District.

As a member of PDRMA's Property/Casualty Program, the Oakbrook Terrace Park District is represented on the Property/Casualty Program Council and the Membership Assembly and is entitled to one vote on each. The relationship between the Oakbrook Terrace Park District and PDRMA is governed by a contract and by-laws that have been adopted by resolution of the Oakbrook Terrace Park District's governing body. The Oakbrook Terrace Park District is contractually obligated to make all annual and supplementary contributions to PDRMA, to report claims on a timely basis, cooperate with PDRMA, its claims administrator and attorneys in claims investigation and settlement, and to follow risk management procedures as outlined by PDRMA.

Members have a contractual obligation to fund any deficit of PDRMA attributable to a membership year during which they were a member.

PDRMA is responsible for administering the self-insurance program and purchasing excess insurance according to the direction of the Program Council. PDRMA also provides its members with risk management services, including the defense of and settlement of claims, and establishes reasonable and necessary loss reduction and prevention procedures to be followed by the members.

The following represents a summary of PDRMA's Property/Casualty Program's balance sheet at December 31, 2023, and the statement of revenues and expenses for the period ending December 31, 2023. The Oakbrook Terrace Park District's portion of the overall equity of the pool is 0.01% or \$3,234.

Assets	\$60,313,775
Deferred Outflows of Resources - Pension	\$ 1,896,306
Liabilities	\$21,392,998

Total Net Position	\$40,678,930
Revenues	\$17,472,235
Nonoperating Revenues	\$ 4,226,502
Expenditures	\$25,204,654

Since 93.63% of PDRMA's liabilities are reserves for losses and loss adjustment expenses which are based on an actuarial estimate of the ultimate losses incurred, the Net Position is impacted annually as more recent loss information becomes available.

On February 1, 1990, the Oakbrook Terrace Park District became a member of the Park District Risk Management Agency (PDRMA) Health Program, a health benefits pool of park districts, special recreation associations, and public service organizations through which medical, vision, dental, life and prescription drug coverages are provided in excess of specified limits for the members, acting as a single insurable unit. The pool purchases excess insurance covering single claims over \$300,000. Until January 1, 2001, the PDRMA Health Program was a separate legal entity formerly known as the Illinois Park Employees Health Network (IPEHN).

Members can choose to provide any combination of coverages available to their employees, and pay premiums accordingly.

As a member of the PDRMA Health Program, the Oakbrook Terrace Park District is represented on the Health Program Council as well as the Membership Assembly and is entitled to one vote on each. The relationship between the member agency and the PDRMA Health Program is governed by a contract and by-laws that have been adopted by resolution of each member's governing body. Members are contractually obligated to make all monthly payments to the PDRMA Health Program and to fund any deficit of the PDRMA Health Program upon dissolution of the pool. They will share in any surplus of the pool based on a decision by the Health Program Council.

NOTE 8 – RETIREMENT SYSTEM

A. Illinois Municipal Retirement Fund (IMRF)

IMRF Plan Description

The employer's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The employer's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

Benefits Provided

IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

OAKBROOK TERRACE PARK DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
APRIL 30, 2024

NOTE 8 – RETIREMENT SYSTEM (CONT'D)

Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by Benefit Terms

As of December 31, 2023, the following employees were covered by the benefit terms:

Retirees and Beneficiaries Currently Receiving Benefits	19
Inactive Plan Members Entitled to But not yet Receiving Benefits	34
Active Plan Members	<u>8</u>
Total	<u><u>61</u></u>

Contributions

As set by statute, the employer's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer's annual contribution rate for calendar year 2023 was 6.31%. For the fiscal year ended April 30, 2024, the employer contributed \$115,770 to the plan. The employer also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability

The employer's net pension liability was measured as of December 31, 2023. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The amount is included in the Accrued Expense on the Statement of Fiduciary Net Position.

Actuarial Assumptions

The following are the methods and assumptions used to determine total pension liability at December 31, 2023:

- The Actuarial Cost Method used was Entry Age Normal.
- The Asset Valuation Method used was Market Value of Assets.
- The Inflation Rate was assumed to be 2.25%.
- Salary Increases were expected to be 2.85% to 13.75%, including inflation.
- The Investment Rate of Return was assumed to be 7.25%.

OAKBROOK TERRACE PARK DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS

NOTE 8 – RETIREMENT SYSTEM (CONT'D)

- Projected Retirement Age was from the experienced-based table of rates that are specific to the type of eligibility condition, last updated for the 2023 valuation pursuant to an experience study of the period 2020-2022.
- For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 108%) and Female (adjusted 106.4%) tables, and future mortality improvements projected using scale MP-2021.
- For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2021.
- For active members, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2021.
- The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table as of December 31, 2023:

Asset Class	Target Allocation	Projected Returns/Risks	
		One Year Arithmetic	Ten Year Geometric
Equities	34.5%	6.35%	5.00%
International Equities	18%	8.00%	6.35%

Hedge Funds		N/A	N/A
Commodities		7.20%	6.05%
Cash Equivalents	1.0%	3.80%	3.80%
Total	100%		

Single Discount Rate

A Single Discount Rate of 7.25% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

OAKBROOK TERRACE PARK DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
APRIL 30, 2024

NOTE 8 – RETIREMENT SYSTEM (CONT'D)

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.25%; the municipal bond rate is 3.77%; and the resulting single discount rate is 7.25%.

A. Health Benefit Plan (HBP)

General Information about the Plan

Plan Description

The Park District offers defined benefit OPEB benefits through the PDRMA Health Plan, administered by PDRMA, a public entity risk pool.

OAKBROOK TERRACE PARK DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS
APRIL 30, 2024

NOTE 9 – OTHER POST EMPLOYMENT BENEFITS (OPEB) (CONT'D)

Benefits Provided

The Park District offers medical, prescription drug, dental, and vision coverage.

Employees Covered by Benefit Terms

As of September 30, 2023, plan membership consists of six active members. There are currently no retirees or beneficiaries receiving benefits.

Contributions

The District contributes to the plan on a “pay as you go” cash basis. With this type of policy, the District funds no more than the current year cost of the postemployment benefits.

Net OPEB Liability

The employer's net OPEB liability was measured as of September 30, 2023. The total OPEB liability used to calculate the OPEB liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The following are the methods and assumptions used to determined total OPEB liability at September 30, 2023:

- The Actuarial Cost Method used was Entry Age Normal, Level Percentage of Pay.
- Salary Increases vary from 2.89% to 9.85% by age and years of service.
- The Funded Ratio was assumed to be 0.00%.
- The Discount Rate was based on the General Obligation Municipal Bond Rate 4.09% as of September 30, 2023.
- Healthcare Cost Trend Rates: District Medical Plan 6.00%, starting a decrease of .10% per year in 2023 to an ultimate rate of 4.50% for 2039 and later years.
- The Mortality Rates were based on the Pub-2010 Healthy Mortality Tables projected generationally with Scale MP-2020.
- The Marriage Assumption states spouses are assumed where current benefit elections indicated spousal coverage. If spouse date of birth was not provided, males were assumed to be two years older than their female counterparts.
- The Lapse Assumption states all participants currently electing coverage under the plan are assumed to maintain coverage in the future.

Discount Rate

The discount rate of September 30, 2023 is 4.09%, based on the general obligation municipal bond yield. As prescribed by GASB for an unfunded OPEB, the discount rate was developed using 20-year municipal bond yield. The general obligation Municipal Bond was used for this purpose.

Summary of Actuarial Methods and Assumptions Used in the Calculation of the 2023 Contribution Rate*

Valuation Date:

Notes Actuarially determined contribution rates are calculated as of December 31 each year, which is 12 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and Assumptions Used to Determine 2023 Contribution Rates

<i>Actuarial Cost Method</i>	Aggregate entry age normal
<i>Amortization Method</i>	Level percentage of payroll, closed
<i>Remaining Amortization Period</i>	Non-taxing bodies: 10-year rolling period. Taxing bodies (Regular, SLEP, and ECO groups): 20-year closed period. Early Retirement Incentive Plan liabilities: a period up to 10 years selected by the Employer upon adoption of ERI.
<i>Asset Valuation Method</i>	5-year smoothed market; 20% corridor
<i>Wage Growth</i>	2.75%
<i>Price Inflation</i>	2.25%
<i>Salary Increases</i>	2.75% to 13.75%, including inflation
<i>Investment Rate of Return</i>	7.25%
<i>Retirement Age</i>	Experience-based table of rates that are specific to the type of eligibility condition; last updated for the 2020 valuation pursuant to an experience study of the period 2017 to 2019.
<i>Mortality</i>	For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements using scale MP-2020. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020.

Other Information:

Notes There were no benefit changes during the year.

OAKBROOK TERRACE PARK DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
APRIL 30, 2024

NOTE 1 – HEALTH BENEFIT PLAN (HBP)

Changes in Assumptions

1. The discount rate was increased from 4.02% to 4.09%;
2. Valuation-year per capita health costs and retiree contribution rates were updated;
3. Trend rates on per capita health costs and contribution rates were modified; and
4. The actuarial factors used to estimate individual retiree and spouse costs by age and by gender were updated. The new factors are based on a review of historical claims experience by age, gender, and status (active vs retired) from the actuaries claims data warehouse.

NOTE 2 – BUDGETS AND BUDGETARY ACCOUNTING

The Park District follows procedures mandated by Illinois State law and District Board policy to establish budgetary data reflected in the financial statements. The modified accrual basis budgeted amounts in this report are the result of full compliance with the following procedures:

The budget lapses at the end of each fiscal year. The budget was passed by the Board of Commissioners on April 25, 2023.

The Park District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. During April, the Director submits to the Board of Commissioners a proposed operating budget for the fiscal year. The operating budget includes proposed disbursements and the means of financing them.
2. Public hearings are conducted at a public meeting to obtain taxpayer comments.
3. Prior to August 1, the budget is legally adopted through passage of ordinance.
4. The Treasurer is authorized to transfer up to 10% of the total budget between budget items within an individual fund; however, any revisions that alter the total disbursements of any fund must be approved by the Board of Commissioners.
5. Formal budgetary integration is employed as a management control device during the year in all funds at the object level.

EXPENDITURES IN EXCESS OF BUDGET

The Park District did not exceed its budgeted expenditures in total for the fiscal year ended April 30, 2024.
